

REMARKS

This Amendment is submitted preliminary to the issuance of an Office Action in the present application.

Applicant has amended claims 1 to 3 to remove any multiple dependency of the claims and to present claims in proper form and language. Applicant asserts that these amendments are cosmetic in nature and that no claims have been narrowed to trigger prosecution history estoppel. Claims 4 to 8 have been added to better encompass the full scope and breadth of the invention.

In addition, applicant has amended the specification to present it with proper headings and to correct an obvious typographic error.

When the Examiner takes this application up for action, s/he is requested to take the foregoing into account.

Respectfully submitted,

By: _____
